A maximum total dose of 0.35 kg a.s./ha/season (0.50kg SHOTPUT/ha/season) may be applied post-emergence of the crop.

Check ADAMA's current variety list for varieties which may be treated with Shotput at www.adama.com/uk or contact the technical helpline on 01635 876 622.

FALCON®

Product Information

Active ingredients:

100g/L propaquizafop

Formulation:

Emulsifiable Concentrate

Pack size: 1 litre

Application Information

Water volume:

100-200L/ha

Spray quality:

Fine or medium

Aquatic buffer: 5m

| Crops | Max individual dose (L/ha) | Max number of treatments | Latest timing of application |
|------------------------------------|----------------------------|--------------------------|------------------------------|
| Potato (maincrop), potato (early)* | 1.5 | 1 per crop | 30 days before harvest |

*Falcon must not be applied to seed crops.

ANTHEM®

Product Information

Active ingredients:

400g/L pendimethalin

Formulation:

Suspension Concentrate

Pack size: 10 litres

Application Information

Water volume:

Minimum 200L/ha

Spray quality:

Fine or medium

Aquatic buffer: LERAP B

| Crops | Max individual dose (L/ha) | Max total dose (L/ha) | Latest timing of application |
|--------|----------------------------|-----------------------|------------------------------|
| Potato | 3.3 | 3.3 per crop | Pre-emergence |

Herbicide Solutions cont.

BLANCO™

Product Information

Active ingredients:

360g/L clomazone

Formulation:

Capsule Suspension

Pack size: 1 litre

Application Information

Water volume:

150-300L/ha

Spray quality: Coarse

Aquatic buffer: 5m to non-crop land

| Crops | Max individual dose (L/ha) | Max number of treatments | Latest timing of application |
|--------|----------------------------|--------------------------|--|
| Potato | 0.25 | 1 per crop | Pre-crop emergence after last ridging ± 7 days before cracking |

SPINNAKER®

Product Information

Active ingredients:

800g/L prosulfocarb

Formulation:

Emulsifiable Concentrate

Pack size: 10 litres

Application Information

Water volume:

200-400L/ha

Spray quality: Medium

Aquatic buffer: LERAP B

| Crops | Max individual dose (L/ha) | Max number of treatments | Latest timing of application |
|--------|----------------------------|--------------------------|--|
| Potato | 5.0 | 1 per crop | At emergence (soil rising over emerging potato shoots) |

Molluscicide Solutions

GUSTO® 3

Product Information

Active ingredients:

3% metaldehyde

Formulation: Pelleted Bait

Pack size: 15kg

| Crops | Max individual dose (kg/ha) | Max total dose (kg/ha/yr) | Latest timing of application |
|--------|-----------------------------|---------------------------|------------------------------|
| Potato | 11.5 | 23 | 21 days before harvest |

GUSTO® IRON

Product Information

Active ingredients:

2.94% ferric phosphate

Formulation: Pelleted Bait

Pack size: 20kg

| Crops | Max individual dose (kg/ha) | Max total dose (kg/ha/yr) |
|--------|-----------------------------|---------------------------|
| Potato | 7 | 28 |

Fungicide Solutions

VOLLEY®

Product Information

Active ingredients:

500g/L fluazinam

Formulation:

Suspension Concentrate

Pack size: 5 litres

Application Information

Water volume:

200-400L/ha

Aquatic buffer: 6 metres (1m dry ditch)

| Crops | Max individual dose (L/ha) | Max total dose (L/ha) | Latest timing of application |
|--------|----------------------------|-----------------------|------------------------------|
| Potato | 0.4 | 4.0 | 1 day before harvest |

EAMU's: ADAMA seeks to assist growers by making applications under Article 51 of Regulation (EC) 1107/2009 for an extension of use where its crop protection solutions do not cover every pest/crop combination and particularly for minor uses. This is defined as an Extension of Authorisation for Minor Uses of existing authorised products.

The extension can be given where the use is minor in nature, is in the public interest and all safety aspects of the risk assessment can be satisfied. It is important to note however;

The extension of the authorised use [EAMU Number] provides for the use of [product name] in respect of crops and situations, other than those included on the product label. No efficacy or phytotoxicity data have been assessed and as such the 'extension of use', is at all times done at the user's choosing, and the commercial risk is entirely theirs.

ANTHEM®, FALCON®, BLANCO®, SHOTPUT®, GUSTO® 3, GUSTO® IRON, VOLLEY® and SPINNAKER® are registered trademark of the ADAMA group. Use plant protection products safely. Always read the label and product information before use. For further product information, including warning phrases and symbols, refer to www.adama.com/uk or call The Technical Helpline on 01635 876 622.
