MaxMan 500 – Crawler must be added to the tank first	

When using tank mixes always follow the statutory conditions of all tank mix partners. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. ADAMA Agricultural Solutions UK Ltd gives no warranty and accepts no liability in respect of physical compatibilities and use is at growers own risk. Crawler® is a registered trademark of the ADAMA group. Crawler® contains 600g/kg carbetamide. Use plant protection products safely. Always read the label and product information before use. For further product information, including warning phrases and symbols, refer to www.adama.com/uk or call The Technical Helpline on 01635 876 622.

TANK MIXES

3-Way Mixes

The following tank mixes have been tested under continuous agitation for physical compatibility with Crawler and will mix at recommended rates:

Elk + Mavrik	Katamaran Turbo + Mavrik	Shogun + Mavrik†
Falcon + Agate EW†	Kerb Flo + Orius P	Shogun + Monkey†
Falcon + Mavrik†	Nimbus CS + Mavrik	Shogun + Orius P†
Falcon + Monkey†	Shadow + Mavrik	Tanaris + Mavrik
Falcon + Orius P†	Shogun + Agate EW†	Topkat + Mavrik

Note: Ensure crop has at least 6 true leaves.

4-Way Mixes

The following tank mixes have been tested under continuous agitation for physical compatibility with Crawler and will mix at recommended rates:

Falcon + Agate + Mavrik†	Shogun + Agate + Mavrik†
Falcon + Monkey + Mavrik†	Shogun + Monkey + Mavrik†
Falcon + Orius P + Mavrik†	Shogun + Orius P + Mavrik†

Note: Ensure the crop has at least 6 true leaves, is "hardened-off" and not under stress.

Where green buds are evident/visible in the base of plants do not apply Crawler or Crawler mixes including graminicides as crop damage may occur at the onset of growth.

Incompatible mixes

DO NOT tank mix Crawler with Proline, Prosaro or Headland 15% MN.

† Biologically compatible.
