ADAMA Agricultural Solutions UK Ltd will support the tank mixing of any of the above named trace elements with an existing 2-way tank mix including Plenum®. ADAMA Agricultural Solutions UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

*Physical compatibility only, no biological work carried out therefore ADAMA cannot support in mix with PLENUM.

When using tank mixes always follow the statutory conditions of all tank mix partners. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. ADAMA Agricultural Solutions UK Ltd gives no warranty and accepts no liability in respect of physical compatibilities and use is at growers own risk.

Plenum® contains 50% w/w pymetrozine. Plenum is a registered trademarks of ADAMA Agricultural Solutions UK Ltd. Use plant protection products safely.
