Blanco	Gamit 36 CS	Shark	Titus*
Cleancrop National	Harvest	Shogun	

#### Insecticides

Aphox
-------

#### Fungicides

Amistar#	Revus	Tanos
Consento	Shirlan	Volley

#### Others

Omex Nitroflo 30N	Yara liquid fertilizer (37%N, urea + AN) - add Yara liquid fertilizer to tank 1st and maintain constant agitation.
-------------------	--

#### Omex Liquid fertilizers

Omex 7-7-10	Typical application volume 2,200L/ha
Omex 12-12-18	Typical application volume 1,200L/ha
Omex 30-0-0	Typical application volume 250L/ha

### 3-Way Mixes

Afalon + Roundup Biactive~
----------------------------

For the Omex liquid fertilizers above follow the following mixing procedure.

- 1) Almost completely fill the sprayer with the fertilizer solution to be applied.
- 2) Pre-mix Shotput with water and ensure that it is in solution before adding to the sprayer.
- 3) Add remaining liquid fertilizer
- 4) Maintain constant agitation throughout filling, travelling and spray operations.  
Dilute solutions should be sprayed immediately.
- 5) Do not leave spray solution in the tank.

# Maintain constant agitation

\*Shotput 0.2kg + Tarot/Titus 40g + non-ionic wetter

~ Shotput to be added first

When using tank mixes always follow the statutory conditions of all tank mix partners. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. ADAMA Agricultural Solutions UK Ltd gives no warranty and accepts no liability in respect of physical compatibilities and use is at growers own risk.

Shotput® contains 70% w/w metribuzin. Use plant protection products safely. Always read the label and product information before use.
