Safari® 750

Outstanding Melon Control in Fallow, Stubble, Firebreaks and Sorghum

Camel Melon (Afghan or Bitter Melon) (*Citrullus lanatus*)

Rate:

Up to 20 cm diameter – 96 mL/Ha

Runners from 20 to 40cm diameter – 128 mL/Ha

Add a crop oil such as Uptake® Spraying Oil at 500 mL/100 L water or D-C-Trate® Crop Oil at 1 L/100 L water.

DO NOT use oils when tank mixing with Wipe-Out® 450 Herbicide.

Prickly Paddy Melon (*Cucumis myriocarpus*)

Rate:

Up to 20cm diameter – 64 mL/Ha

Runners from 20 to 40cm diameter – 128 mL/Ha

Add a crop oil such as Uptake® Spraying Oil at 500 mL/100 L water or D-C-Trate NewGen® Crop Oil at 1 L/100 L water.

DO NOT use oils when tank mixing with Wipe-Out® 450 Herbicide.

In Sorghum:

Up to 20cm diameter – 64 mL/Ha

Only apply between 4 - 6 Leaf crop stage with NO ADDED CROP OIL as severe crop damage may occur.

Always refer to the label prior to use for detailed recommendations including rates and application timing.
