Innovative New Products and Label Extensions

Axiom® Flexi

- 800 g/L metalaxyl-m
- Downy mildew control in wine and table grapes
- Concentrated and compatible SL formulation
- Flexibility to tank mix Axiom® Flexi with your choice of copper or mancozeb fungicides
- Low application rates for reduced storage and handling

Maxentis® Opti

- Azoxystrobin 200 g/L + Prothioconazole 150 g/L
- Foliar disease control in barley, wheat and canola
- Dual mode of action (3&11) providing optimal efficacy and reducing the risk of resistance development.
- Compatible high-load SC formulation
- Application rate 200-400 mL/ha in cereals, and 500-600 mL/ha in canola
- Excellent Crop Safety especially in sensitive crops like canola

Grindstone®

- Cost-effective tank-mix partner for enhanced knockdown of challenging broadleaf and woody weeds
- Provides effective short-term residual control of problem weeds such as Fleabane and Climbing buckwheat
- Broad range of registered use patterns including winter cereals and fallow, grass pasture and non-crop situations
- Solo formulation promotes favourable re-cropping flexibility
- Unique Soluble Liquid (SL) formulation for ease of tank-mixing - compatible with a broad range of grass and broadleaf weed herbicides
- Low use rate - minimal packaging, handling and transport

Monsoon®

- Unique co-formulation with complementary activity on challenging broadleaf weeds
- Robust efficacy on broadleaf weeds including Caltrop, Climbing buckwheat, Fumitory, Saltbush, Peach vine and Pigweed
- Broad range of use patterns including fallow, OSST and winter cereals
- Good option for 2,4-D sensitive areas
- Enables crop rotation flexibility
