

# Maxentis® Opti

Takes the headache out of foliar disease control.

Maxentis Opti delivers best-in-category protection against disease in cereals and canola without compromising compatibility.

- Broad spectrum control of key foliar diseases
- Excellent compatibility and crop safety
- Two modes of action for improved spectrum, optimal efficacy and resistance management
- Developed and proven for Australian conditions

## New concentrated formulation

	Maxentis EC	Maxentis Opti SC
Cereals	300 mL/ha	200 mL/ha
