PYRINEX® INSECTICIDE

GROUP 1 INSECTICIDE

For control of various insect pests in certain agricultural and horticultural crops

READ THE ATTACHED BOOKLET COMPLETELY BEFORE MIXING OR APPLYING

Active Ingredient:
Contains 480 g/L CHLORPYRIFOS in the form of an emulsifiable concentrate, also contains 465 g/L XYLENE

ADAMA New Zealand Limited
Level 1, 93 Bolt Road
Tahunanui, Nelson 7011
PO Box 1799, Nelson 7040

NET CONTENTS
5 L, 10 L, 20 L
REFER TO BOOKLET FOR FULL LABEL INSTRUCTIONS.

HAZARD CLASSIFICATIONS: 3.1C, 6.1C, 6.3A, 6.4A, 6.8B, 6.9A, 9.1A, 9.2B, 9.3.A, 9.4A

THIS PRODUCT IS RESTRICTED TO WORKPLACES ONLY.

PCBU RESPONSIBILITIES
A PCBU with management or control of work using this substance must ensure that every worker who uses, handles, manufactures, or stores this hazardous substance (including hazardous waste) is, before the worker is allowed to carry out or supervise work involving those substances, provided with adequate information, training and instruction. This includes the use of personal protective equipment to be used to minimise risks to the health and safety of workers when carrying out work using this substance.

QUALIFICATIONS REQUIRED FOR APPLICATION OF CLASS 9 SUBSTANCES
Anyone who mixes, loads, or applies this product, either by air or ground based methods, is required to be suitably qualified, or must receive guidance and, if required, assistance from a suitably qualified person. Refer to Schedule 10 of the Hazardous Substances (Hazardous Property Controls) notice 2017 for a list of suitable qualifications.

RECORD KEEPING
Where 3 kg or more of the substance is applied within 24 hours, in a place where the substance is likely to enter air or water and leave the application area, a PCBU with management or control of the substance must ensure that a written record is kept of each application of the substance. Refer to Part 4 Clause 48 of the Hazardous Substances (Hazardous Property Controls) notice 2017 for details of information that must be recorded.

DANGER
Flammable liquid and vapour.
Toxic if swallowed, in contact with skin or inhaled.
Causes skin irritation.
Causes serious eye irritation.
Suspected of damaging fertility or the unborn child.
Causes damage to organs through prolonged or repeated exposure.
Very toxic to aquatic life.
Toxic to the soil environment.
Very toxic to terrestrial vertebrates.
Very toxic to terrestrial invertebrates.

HANDLING PRECAUTIONS
Keep out of reach of children.
Do not eat, drink or smoke while using.
Keep away from heat, sparks and open flames. No smoking.
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not breathe spray mist or vapours.
Use only outdoors or in a well-ventilated area.
Use personal protective equipment as required.
Wash exposed skin thoroughly after handling.

EQUIPMENT
A PCBU with management or control of work using this substance must ensure that equipment used to handle this substance retains the substance, without leakage, at all of the temperatures and pressures at which the equipment is to be used; and dispenses or applies the substance, without leakage, at a rate and in a manner that the equipment is designed for. The PCBU must ensure that the equipment is accompanied by documentation that is readily available and readily understandable about the use and maintenance of the equipment.

STORAGE
Store locked up in the original, tightly closed container in a cool, dry, well-ventilated place, out of direct sunlight and away from stockfeed or foodstuffs. Use explosion-proof electoral, ventilating and lighting equipment. Use only non-sparking tools. In case of fire use dry chemical, water spray, foam or carbon dioxide for extinction.
Store in accordance with NZS 8409 Management of Agrichemicals. Secondary containment and emergency response plans are required where 100 L or more of this product are stored. Refer to the product SDS for further information.

TRANSPORT
Do not carry packages greater than 1 L of this product on passenger service vehicles.

**SHELF LIFE**
When stored appropriately this product should show no significant degradation for two years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

**PERSONAL PROTECTION**
When mixing or applying wear appropriate protective clothing including impervious, elbow-length gloves and eye protection such as goggles or face shield. Remove protective clothing and wash hands and face before meals and after work. Contaminated work clothing should not be allowed out of the workplace.

**SPILLAGE**
Exclude all bystanders from the vicinity of the spill and prevent material from entering waterways. Wear appropriate protective clothing as in the personal protection section of this label to clean up spills. Absorb spills with an inert material (such as vermiculite, earth, sand or synthetic absorbent substance) and place in waste containers. Wash area with water and alkaline detergent. Then absorb any remaining liquid with further inert material. Dispose of the waste safely in an approved landfill.

**DISPOSAL**
- **Container Disposal** - Triple rinse empty container and add rinsate to spray tank. Submit clean empty container to an Agrecovery® depot for recycling. Alternatively, puncture and bury in a suitable landfill. Avoid contamination of any water supply with product or empty container.
- **Product Disposal** - Dispose of this product only by using according to the label or through the Agrecovery® Chemical Recovery service or other approved facility.

**FIRST AID**
For advice or if you feel unwell or are exposed or concerned, contact the National Poisons Centre 0800 POISON (0800 764 766) or doctor immediately.

**IF SWALLOWED:** Rinse mouth. Immediately call a POISON CENTRE or doctor.

**IF INHALED:** Remove to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTRE or doctor.

**IF ON SKIN:** Immediately remove contaminated clothing. Wash with plenty of soap and water. Call a POISON CENTRE or doctor. Wash contaminated clothing before reuse.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

**CONDITIONS OF SALE**
ADAMA New Zealand Limited will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of ADAMA New Zealand Limited is limited to the replacement of the goods or (at the option of ADAMA New Zealand Limited) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to ADAMA New Zealand Limited within thirty days of delivery.

**SAFETY DATA SHEET**
A Safety Data Sheet for this product is available from www.adama.com or ADAMA New Zealand Limited on request. Call 03 543 8275.

**DIRECTIONS FOR USE**
It is an offence to use this product on animals.

**EPA Controls**
- The person applying this substance must not cause adverse effects beyond the boundary of the treated property and must also avoid adverse effects from spray drift occurring. Mitigation measures employed must be recorded as part of the application records.
- Do not apply onto or into water.
- Maximum application rate: 3.125 L/ha
- This product is toxic to bees. Do not apply this product to any plant or tree likely to be visited by bees:
  a) at the time of application; or
  b) immediately after application until spray has dried; or
  c) in areas where bees are foraging.
- For wide-dispersive (aerial) application, the applicator must provide written notice of the proposed application to any person(s) likely to be directly affected by the application, including occupiers and owners of land, dwellings, buildings or property that is immediately abutting the application area. This notice must be given at least two working days but no more than four weeks in advance of each application; and specify the following:
  i. The location of application area;
ii. The date and approximate duration of each application;

iii. The steps to be taken by the notified parties to avoid exposure (e.g. closing windows and doors, moving laundry indoors, staying inside, etc.);

iv. The name of the organisation(s) undertaking the application;

v. Contact details for the person in charge of the application (phone, email or postal address, including a contact number for immediate contact during application).

### AGRICULTURAL CROPS

<thead>
<tr>
<th>CROP</th>
<th>PEST</th>
<th>RATE</th>
<th>CRITICAL COMMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lucerne</td>
<td><strong>Aphids</strong></td>
<td>300-450 mL/ha</td>
<td>Apply as soon as Aphids appear. Use the lower rate on short crops with little leaf, and the higher rate on tall crops. Do not spray plants in flower.</td>
</tr>
<tr>
<td></td>
<td><strong>Sitona weevil</strong></td>
<td>600-800 mL/ha in 100-200 L water</td>
<td>To control adults, apply in mid-late May, after flights cease and before egg laying occurs. Use the high rate in dense stands and spray during a warm, calm day.</td>
</tr>
<tr>
<td>Maize</td>
<td><strong>Army caterpillar, corn earworm</strong></td>
<td>500 mL/ha</td>
<td>Apply immediately damage is first seen and repeat if necessary 14-21 days later.</td>
</tr>
<tr>
<td></td>
<td><strong>Cutworm</strong></td>
<td>600 mL/ha</td>
<td>Use in sufficient water for complete coverage of the seedlings and surrounding soil. Spray in the evening at first sign of damage.</td>
</tr>
<tr>
<td>Pasture</td>
<td><strong>Army caterpillar</strong></td>
<td><strong>Ground application 400 mL/ha in 100-200 L water</strong></td>
<td>Apply when damage is first seen (usually associated with severe flood damage).</td>
</tr>
<tr>
<td></td>
<td><strong>Lucerne flea</strong></td>
<td>200 mL/ha</td>
<td>Apply in late autumn/early winter at first sign of clover damage.</td>
</tr>
<tr>
<td></td>
<td><strong>Porina caterpillar</strong></td>
<td>1.25-1.7 L/ha in 50-200 L water</td>
<td>Use the low rate against small caterpillars, before frosts occur. Closely graze pasture before spraying.</td>
</tr>
<tr>
<td></td>
<td><strong>Tasmanian grass grub</strong></td>
<td>1.25-1.5 L/ha in 100-200 L water</td>
<td>Apply to short dry pasture between April and June at first signs of pasture damage. Harrowing of dung patches is recommended prior to spraying, to expose the larvae. Use higher rates when population is large.</td>
</tr>
<tr>
<td></td>
<td><strong>Argentine stem weevil</strong></td>
<td>1.25 L in 100-200 L of water/ha</td>
<td>Apply as soon as eggs are found on the lower leaf sheaf.</td>
</tr>
<tr>
<td>Cereals</td>
<td><strong>Cereal, rose and grain aphid</strong></td>
<td>300-400 mL/ha</td>
<td>Apply at first sign of infestation. Use the high rate when infestation pressure is high or the crop is dense.</td>
</tr>
<tr>
<td>Ryegrass/cereals</td>
<td><strong>Argentine stem weevil</strong></td>
<td>1.25 L/ha</td>
<td>Apply as soon as eggs are present on the lower leaf sheath.</td>
</tr>
</tbody>
</table>

<td>Industrial pests</td>
<td>Spiders, ants and slaters</td>
<td>120 mL in 10 L of water or deodorised kerosene</td>
<td>Apply to areas around doors, windows, eaves and other resting areas. Re-treat as required</td>
</tr>
</tbody>
</table>

It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

**WITHHOLDING PERIODS**

- **Avocado, grapes, maize:** Do not apply later than 14 days before harvest.
- **Cereals for grain:** Do not apply later than 8 weeks before harvest.
- **Fodder crops, pasture:** Do not apply later than 7 days before harvest.
- **Kiwifruit:** Do not apply later than bud cracking (first visible petals).
- **Onions:** Do not apply later than 7 days before harvest
Pipfruit: Do not apply after tight cluster
Squash: Do not apply later than 10 days before harvest.
Stonefruit: Do not apply after petal fall

RE-ENTRY INTERVAL
Do not enter any treated area for 24 hours after application. If prior access is required, chemical resistant coveralls gloves, footwear plus socks, headgear for overhead exposures and protective eyewear must be worn at all times.

MIXING
Invert container several times before opening. Stir well. Add the full quantity of product to the partly filled spray tank while agitating. Fill tank and agitate to ensure thorough mixing and continue agitation while spraying. Agitate vigorously from the bottom if allowed to stand. Reseal part used containers immediately.

APPLICATION
The rates suggested for orchard crops are for high volume spraying to run off. For concentrate spraying, adjust dilution rate accordingly.

COMPATIBILITY
This product is compatible with most commonly used pesticides. It is not compatible with highly alkaline materials such as Bordeaux mixture and lime sulphur.

RESISTANCE MANAGEMENT
PYRINEX INSECTICIDE contains the GROUP 1 organophosphate insecticide, chlorpyrifos. Resistance to this pesticide may develop from excessive use. Avoid using this insecticide exclusively all season and avoid unnecessary spraying. Maintain good cultural control practices. To minimize this risk use strictly in accordance with label instructions and resistance management strategies that exist for any insect pest listed on the label. Consult https://resistance.nzpps.org/ for current resistance management strategies for listed pests.

CONDITIONS OF SALE
ADAMA New Zealand Limited will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods.
