ACTIVE CONSTITUENT: 0.05 g/kg BRODIFACOUM

For the control of rats and mice, including those resistant to other anticoagulants, in and around industrial, commercial, public services and domestic buildings.

adama.com

NET CONTENTS: 300 g, 1 kg, 2 kg, 5kg

DIRECTIONS FOR USE: (ALL STATES)

RESTRAINTS:

Eliminate, as far as is practicable, all alternative food sources.
DO NOT exceed 3 metres between baits for mice, or 9 metres for rats.
DO NOT place baits in open.
DO NOT apply baits to crops.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Apply where pests occur, e.g. food processing factories, or stores, laundries, restaurants, ships, boiler houses, hotels-motels.	Rats	2 or more blocks per bait station	Rats require large quantities of blocks in one or two locations.
	Mice	2 or more blocks per infested area	Mice require several bait stations.
			Blocks should be separated before use. Place in sheltered positions near rodent entry points and other areas of rodent activity. Inspect blocks regularly and ensure sufficient are always available. For effective control, remove alternative food sources and continue to bait until feeding ceases.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

RODEX B RAT BLOCKS are particularly useful in areas where baits deteriorate rapidly, such as damp areas, sub-floors, roof voids and out-houses. The hole in the centre of the block will allow pinning or tying in positions off the ground in very moist areas, or where rodents are climbing. The blocks may be used in conjunction with Rodex B Pellet treatments.

DO NOT place blocks on or near exposed food or food utensils, food preparation areas or food storage areas.

PROTECTION OF LIVESTOCK, WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate ponds, waterways or drains with chemical or used containers. Place blocks in locations inaccessible to domestic animals, birds and non target wildlife. This product is hazardous to pigs, cats, dogs and poultry. DO NOT feed blocks to wild or domestic birds. DO NOT apply blocks to crops. Collect unused blocks and carcasses.

STORAGE AND DISPOSAL

DO NOT use containers which have held bait for any other purpose. Store in original container, in a dry, cool, well-ventilated area, out of direct sunlight. Dispose of used containers and unused blocks by burying in an approved landfill. Dispose of all rodent carcasses by burning or burying in an approved landfill.

SAFETY DIRECTIONS

Poisonous if swallowed. DO NOT touch bait – use scoop or measure. If on skin and after each baiting wash thoroughly with soap and water. Vitamin K₁ (Phytomenadione) is antidotal. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

NOTE TO PHYSICIAN

RODEX B is an anticoagulant. Vitamin K₁ (Phytomenadione) is antidotal.
