2. HAZARDS IDENTIFICATION

This chemical is a product registered by the Canadian Pest Control Products Act and is subject to certain labeling requirements under federal law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-PCPA registered chemicals. Please see Section 15 for additional information. This product has been classified according to Canada’s Hazardous Product Regulations (WHMIS 2015).

Appearance Yellow to orange liquid
Physical state Liquid
Odor Aromatic

Signal Word Danger
**Hazard statements**
Causes serious eye irritation
Suspected of causing cancer
May damage fertility or the unborn child
May cause damage to organs through prolonged or repeated exposure
May be fatal if swallowed and enters airways
Combustible liquid

**Precautionary Statements - Prevention**
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Do not breathe dust/fume/gas/mist/vapors/spray
Wear protective gloves/protective clothing/eye protection/face protection
Wash face, hands and any exposed skin thoroughly after handling
Keep away from heat/sparks/open flames/hot surfaces. — No smoking

**Precautionary Statements - Response**
If exposed or concerned: Get medical advice/attention
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
If eye irritation persists: Get medical advice/attention
IF INHALED: Remove person to fresh air and keep comfortable for breathing
IF SWALLOWED: Immediately call a POISON CENTER or doctor
Do NOT induce vomiting
IN CASE OF FIRE: Use dry sand, dry chemical or alcohol-resistant foam to extinguish

**Precautionary Statements - Storage**
Store locked up

**Precautionary Statements - Disposal**
Dispose of contents/container to an approved waste disposal plant

**Other hazards**
Very toxic to aquatic life with long lasting effects

### 4. FIRST AID MEASURES

**Description of first aid measures**

**General Advice**
In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible). First aider: Pay attention to self-protection.
**Eye Contact**
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

**Skin Contact**
Remove/take off immediately all contaminated clothing. Wash off immediately with soap and plenty of water. If symptoms persist, call a physician. Wash contaminated clothing before reuse.

**Inhalation**
Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or poison control center immediately.

**Ingestion**
Do NOT induce vomiting. Rinse mouth. Immediate medical attention is required.

**Most important symptoms and effects, both acute and delayed**

**Symptoms**
Causes serious eye irritation. Small amounts of liquid aspirated into the respiratory system during ingestion or from vomiting, may cause bronchopneumonia or pulmonary edema.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician**
No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Treat the patient symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

### 5. FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media**
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

- **Small Fire**

- **Large Fire**
  Alcohol resistant foam.

**Unsuitable Extinguishing Media**
Do not use a solid water stream as it may scatter and spread fire.

**Specific Hazards Arising from the Chemical**
Combustible liquid. Flash back possible over considerable distance.

- **Hazardous combustion products**
  Smoke, fumes or vapors, and oxides of carbon.

**Protective equipment and precautions for firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
Use personal protective equipment as required. Isolate spill or leak area immediately. Stay upwind and out of low areas. Ventilate closed spaces before entering. Do not touch or walk through spilled material. Pay attention to flashback.

**For Emergency Responders**
Use personal protection recommended in Section 8.

**Environmental precautions**

**Environmental precautions**
Do not flush into surface water or sanitary sewer system. If the product contaminates lakes, rivers, or sewers, inform appropriate authorities in accordance with local regulations. See Section 12 for additional Ecological Information.
Methods and material for containment and cleaning up

Methods for Containment
Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see Section 13).

Methods for Clean-Up
Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water if necessary.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling
Avoid breathing dust/fume/gas/mist/vapors/spray. Use personal protection recommended in Section 8. Do not eat, drink or smoke when using this product. Wash face, hands and any exposed skin thoroughly after handling. Keep away from heat/sparks/open flames/hot surfaces. — No smoking. Take precautionary measures against static discharges.

Conditions for safe storage, including any incompatibilities

Storage Conditions
Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Do not store near combustible materials. Keep in an area equipped with sprinklers. Keep away from food, drink and animal feeding stuffs. No smoking near storage. Physically and chemically stable for at least 2 years when stored in the original unopened sales container at ambient temperatures.

Incompatible Materials
None known based on information supplied.

Appropriate engineering controls

Engineering Controls
THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION, PACKAGING AND USE OF THIS PRODUCT. FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL. FOR ENGINEERING CONTROLS, REFER TO PRODUCT LABEL.
Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.
The extent of these protection measures depends on the actual risks in use.
Maintain air concentrations below occupational exposure standards.
Where necessary, seek additional occupational hygiene advice.

Individual protection measures, such as personal protective equipment

Eye/Face Protection
Tight sealing safety goggles.

Skin and Body Protection
Wear protective gloves and protective clothing. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace.. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
Respiratory Protection
Ensure adequate ventilation, especially in confined areas. Normally not required if good ventilation is maintained. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice. Remove contaminated clothing promptly and wash thoroughly before reused.

Product Statement
This chemical is a product registered by the Canadian Pest Control Products Act and is subject to certain labeling requirements under federal law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-PCPA registered chemicals. Read the approved label, authorized under the Pest Control Products Act, prior to using or handling the pest control product. Following is the hazard information as required on the pesticide label:
