PROTECT YOUR CEREALS

ADAMA
Replacing Prestige™ XL, this herbicide provides targeted control of broadleaf weeds like thistle, cleavers and kochia in barley, spring wheat and durum wheat.

**ACTIVE INGREDIENTS:** Fluroxypyr 180 g/L, MCPA Ester 600 g/L, Clopyralid 360 g/L

**CHEMISTRY GROUP:** Group 4

**APPLICATION RATES AND PACKAGING:**
- 1 co-pack case includes: 9.6 L jug Fluroxypyr 180 + 11.01 L MCPA Ester 600 + 3.34 L ADAMA Clopyralid 360
- 30 (high rate) to 40 (low rate) acres per co-pack case

**REGISTERED CROPS:**
- Barley
- Wheat (spring, durum)

**WEEDS CONTROLLED:**
At the low rate of 40 ac/case or 605 ml/ac:
(240 ml/ac of 180 g/L Fluroxypyr 180; 280 ml/ac of 600 g/L MCPA Ester 600; 84 ml/ac of 360 g/L of ADAMA Clopyralid 360) will control:
Wild buckwheat, burdock, cleavers, Canada thistle (low infestations), cocklebur, field horsetail (top growth), volunteer flax, flxweed, kochia, lamb’s quarters, wild mustard, plantain (top growth), prickly lettuce, ragweeds, shepherd’s purse, stinkweed, stork’s bill, volunteer sunflowers, annual sunflowers, vetch, wild radish

At the high rate of 30 ac/case or 800 ml/ac:
320 ml/ac of 180 g/L Fluroxypyr 180; 365 ml/ac of 600 g/L MCPA Ester 600; 110 ml/ac of 360 g/L ADAMA Clopyralid 360) will control:
Tartary buckwheat, Canada thistle (medium to high infestations, season long control), volunteer canola, chickweed, dandelions, common groundsel, hempnettle, roundleaf mallow, redroot pigweed, Russian pigweed, scentless chamomile, smartweed, annual sow-thistle, perennial sow-thistle (season long control)

**HOW IT WORKS:**
The components of ESTEEM move within the plant to control exposed and underground plant tissues. It mimics naturally occurring plant hormones which control weeds by disrupting normal plant growth patterns. Symptoms of effect include epinasty (twisting of the stems) and swollen nodes.

**CROP STAGING:**
3-leaf stage to just before flag emergence

**WATER VOLUME:**
- Ground: 20 - 40 L/ac
- Aerial: 12 - 20 L/ac

**RAINFASTNESS:**
4 hours

**SUPPORTED TANK MIXES:**
BENGAL® WB, BISON® 400 L, LADDER® 240 EC, LADDER® ALL-IN, Liquid Achieve™, Horizon®, Assert® 300 SC, Puma®, Avenge® 200-C, Axial®, BroadBand® and Varro®

**MIXING INSTRUCTIONS:**
1. ½ fill the tank with clean water.
2. Add the required amount of MCPA Ester and fluroxypyr, agitate thoroughly.
3. Add any tank-mix partners, agitate thoroughly.
4. Add the required amount of ADAMA Clopyralid, agitate thoroughly.
5. Fill the tank and agitate again before using.

**CROP ROTATIONS:**
Barley, canola, flax, forage grasses, mustard, oats, rye and wheat can be seeded the following year.

**PRE-HARVEST INTERVAL:**
Do not harvest treated crop within 60 days of application.

**GRAZING RESTRICTIONS:**
Do not graze livestock within 7 days of application.

**STORAGE:**
Do not freeze.

⚠️ Always read and follow label directions.

## HERBICIDE

### HOTSHOT™
- **Active Ingredient**: Bromoxynil, Florasulam
- **Case Package Size**: 2 × 9.7 L bromoxynil, 1.6 L florasulam
- **Acres Treated**: 50
- **Registered/Supported Crops**: wheat, barley, oats
- **Crop Stage**: prior to seeding
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 30 minutes
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### LADDER® 240 EC
- **Active Ingredient**: Clodinafop-propargyl
- **Case Package Size**: 3.68 L + 4 L Adjuvant 80
- **Acres Treated**: 120
- **Registered/Supported Crops**: wheat, barley, oats
- **Crop Stage**: apply to small weeds, target 1–4 leaf stage
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 30 minutes
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### LADDER® ALL-IN
- **Active Ingredient**: Clodinafop-propargyl
- **Case Package Size**: 2 x 5.66 L jug
- **Acres Treated**: 40
- **Registered/Supported Crops**: wheat, oats, peas, barley, canola
- **Crop Stage**: prior to seeding
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 2–4 hours
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### OUTSHINE™
- **Active Ingredient**: Florasulam, Fluroxypyr, MCPA Ester
- **Case Package Size**: 2 x 6.4 L
- **Acres Treated**: 320
- **Registered/Supported Crops**: wheat, oats, peas, barley, canola
- **Crop Stage**: prior to seeding
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 30 minutes
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### PRIORITY®
- **Active Ingredient**: Florasulam
- **Case Package Size**: 2 x 6.4 L
- **Acres Treated**: 520
- **Registered/Supported Crops**: wheat, oats, peas, barley, canola
- **Crop Stage**: prior to seeding
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 30 minutes
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### Additional Supported Tank Mixes
- **Registered/Supported Crops**: wheat, barley, oats
- **Crop Stage**: prior to seeding
- **Key Pesticides**: foxtail \( G \), wild oats, volunteer oats, barnyard grass, Persian dandelion
- **Rainfastness**: 30 minutes
- **Storage**: store above -10 C (see below)
- **Controls**: hard-to-kill and herbicide resistant weeds
- **Tank Mixable with**: 30+ products
- **Aerial**: no restrictions
- **Additional Info**: if frozen, bring to room temperature and agitate before use; must use Adjuvant 80

### Registered Tank-Mix Options
- **Glyphosate (DMA, IPA or K-salt formulations)**
- **2,4-D, Attain™, RUSH™ 24, BADGE® II, BROMOTRIL® II, Curtail® M – 30+ Broadleaf products (See label)**
- **2,4-D, Attain™, RUSH™ 24, BADGE® II, BROMOTRIL® II, Curtail® M**
- **Assert®, Axial®, Everest®**
- **Glyphosate (DMA, IPA or K-salt formulations)**

### Important Notes
- **Winter wheat**
- **Spring wheat**
- **Durum wheat**
- **Green foxtail**
- **Yellow foxtail**
