Resistance Management

To prevent risk of developing pest resistance, it is recommended that Odeon 82.5WDG be alternated with products of different modes of action.

Preparation for spray mixture

Half fill the tank with water. Add the required amount of Odeon 82.5WDG and water in a separate container and mix well until the mixture is thoroughly uniform. Add the mixture to the tank and add water to the required amount as the agitator is running.

Hazards/Precautions

Wear protective clothing: overalls, footwear, gloves, and face shield when preparing and using the product. Do not eat, drink or smoke while using it. Avoid inhaling spray mist, contact with skin, eyes and clothing. Do not apply upwind and stay out of the spray mist.

After Work

Wash hands before breaks and at the end of work. Change clothes and wash hands and face with soap and water thoroughly. Wash the spraying equipment and any contaminated clothing carefully.

Storage

Keep out of reach of children. Store in tightly closed original container in a cool dry and well ventilated place, under lock and key so that unauthorized persons do not have access. Keep away from food, drinks and animal feeds. Keep away from sunlight, excessive heat and open flame.

Disposal

Triple rinse the pouch and puncture or perforate it. Dispose off in a landfill site approved for pesticides or bury away from water resources in accordance with national legislation or return to stockist/distributor. The rinsate should be disposed off away from surface water to avoid contamination. Do not re-use the empty container for any other purpose.

Pesticide Leakage and Spillage

In event of heavy spillage, collect the contaminated soil layer and bury in an authorized place away from water supplies. Soaking in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorized landfill site. The pesticide store must be decontaminated by washing with a lot of water.
