

ADAMA Solutions for Atlantic Canada's Lowbush Blueberries

From weed management to disease and insect protection, ADAMA has tools to help you manage the challenges in your lowbush blueberry fields.

WEED MANAGEMENT

Tough broadleaf weeds or grassy weeds competing with your crop?

INVOLVE® 50 WDG

Targeted broadleaf weed control.

- Bunchberry
- Bracken Fern
- Yellow Loosestrife
- Speckled Alder
- Wild Rose

ARROW ALL IN®

Grassy weed control with convenience built in.

- **Now registered** for Lowbush Blueberries
- Clethodim-based grassy weed control of annual and perennial grasses
- Use with additional surfactant, see the label

KEEP DISEASE FROM TAKING HOLD

SORATEL®

Advanced protection for lowbush blueberry disease management.

Powered by Asorbital® Formulation Technology, SORATEL® is designed for improved penetration and systemic movement. SORATEL® meets or exceeds control by 5% over the leading competitive products in key blueberry diseases like Mummy Berry and Valdensinia Leaf Spot and suppression of Leaf Rust and Septoria Leaf Spot. SORATEL® is powered by Asorbital® Formulation Technology, which provides improved leaf penetration into the plant, and improved efficacy.

Registered for:

- Mummy Berry
- Septoria
- Valdensinia Leaf Spot
- Leaf Rust

PROTECT. PENETRATE. PERFORM.

MAXENTIS®

Dual-mode protection for rust management.

Groups 3 + 11

- Rust suppression in Lowbush Blueberries
- Two distinct modes of action
- Systemic activity
- Resistance-management value
- Powered by Asorbital® Formulation Technology

TWO MODES. ONE POWERFUL TOOL FOR YOUR ROTATION.

VANTANA™

A resistance-management tool for Valdensinia Leaf Spot.

Group 29 fungicide

- Valdensinia Leaf Spot
- Protective activity
- Multiple rate options
- An additional mode of action for your disease-management program

PROTECT AGAINST KEY INSECT PESTS

CORMORAN®

Two modes of action. Rapid knockdown + residual control.

Registered targets in lowbush blueberries include:

- Blueberry Spanworm
- Blueberry Maggot Fly
- Blueberry Gall Midge
- Blueberry Flea Beetle
- Aphids
- Cranberry Fruitworm
- Cherry Fruitworm
- Strawberry Rootworm
- Thrips
- Japanese Beetle
- Spotted-Wing Drosophila
