

Folpan 80 WDG

Folpan 80 WDG contains 800 gram Folpet active ingredient per kilogram of formulated product. It belongs to phthalimide chemical group and formulated as Water Dispersible Granule (WDG). It is a non-systemic organic fungicide used as protectant with contact action, used to control Anthracnose (*Colletotrichum Spp*) from Papaya. Apply 2.6kg/ha of Folpan 80 WDG. Repeat spraying at 14 days interval based on the occurrence of the disease.

It is grouped under FRAC M4 according to its mode of action.
