

ADAMA India Private Limited

(Formerly known as Makhteshim-Agan India Private Limited)

Presents

Innovative & Advanced Ready to Use formulation for Wheat seed treatment

Orius[®] FS

Easy to use

Crop	Disease	Dosage	
		100kg seed (Ha)	30 kg seed(Acre)
Wheat	Loose Smut and Flag Smut	30ml	9ml

Orius[®] FS

Tebuconazole 5.4% w/w FS

- ▶ Tebuconazole 5.4% is a flowable suspension concentrate containing Tebuconazole 5.4% w/w (a.i) in the formulation. It perfectly suitable to modern seed protection requirements. It is a systemic fungicide used as seed treatment chemical for the control or suppression of Loose Smut and Flag Smut in Wheat.
- ▶ **Orius FS** has a mode of action different from other seed treatment chemicals
- ▶ **Orius FS** acts as a C14 demethylation inhibitor (DMI fungicide). It significantly inhibits the development of subcuticular growth of fungal mycelium & prevents the development of susceptible diseases.

Available Pack sizes:
15ml, 150ml

Antidote:

Gastric lavage with 5 % sodium bicarbonate. Follow attached directions. Treat symptomatically
