

# ADAMA India Private Limited

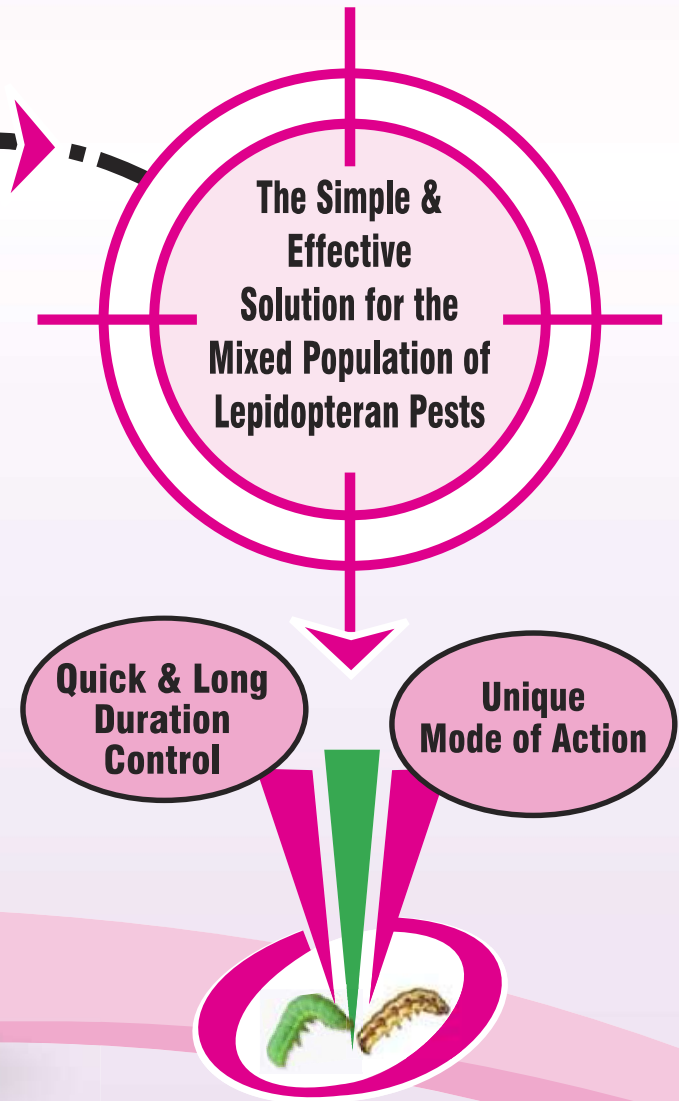

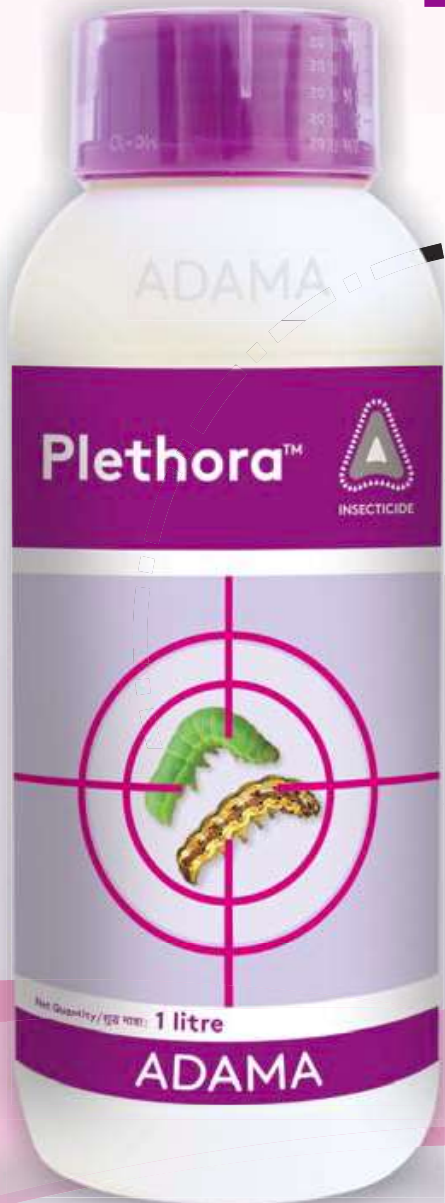

(Formerly known as Makhteshim-Agan India Private Limited)

Presents

An Innovative Product For  
Effective Control of Lepidopteran Pests

# Plethora™

A Lepidopteran Pest Killer

# INSECTICIDE

## Plethora™

Novaluron 5.25% + Indoxacarb 4.5% w/w SC

- ▶ **Plethora** is a broad spectrum insecticide for lepidopteran pests.
- ▶ **Plethora** is an innovative product with dual mode of action
- ▶ **Plethora** acts as a chitin synthesis inhibitor and also affects the insect nervous system by inhibiting sodium ions entry into nerve cells hence, the insecticide hampers moulting & also paralyses the insect.
- ▶ **Plethora** has phytotonic effect on the crop.

**Available Pack sizes:** 50ml, 100ml, 350ml, 500ml, 1ltr

### Antidote:

There is no specific antidote. Treat symptomatically and give supportive therapy
