Imperial™

Bifenthrin 10% EC

- ▶ **Imperial** belongs to pyrethroid group & it is a non-systemic insecticide & acaricide.
- ▶ **Imperial** affects insects by stomach and contact action. Imperial acts on the nervous system of insects and disturbs the function of neurons by interaction with the sodium channel.
- ▶ **Imperial** is effective against a broad range of foliar pests in a wide variety of crops.

Available Pack sizes:
100ml, 250ml, 500ml, 1ltr, 5ltr

Antidote:
Treat symptomatically & supportively
