

Cohigan® WG

Imidacloprid 70% WG

- ▶ **Cohigan WG** is a neonicotinoid insecticide with contact and stomach action.
- ▶ **Cohigan WG** is highly systemic and acts on the central nervous system and has long residual activity. The mode of application (foliar spray, soil application, seed treatment etc) directly influences the product's knock down ability and time to control the target pest population.
- ▶ **Cohigan WG** is effective against a wide range of foliar pests via its systemic activity and specifically control sucking insects.

Available Pack sizes:
