Presents

Agas™

Agas-White flies destroyer

Agas™

Diafenthiuron 50% WP

- ▶ **Agas** belongs to the thiourea group. It acts as an insecticide as well as an acaricide.
- ▶ **Agas** kills larvae, nymphs and adults by contact and / or stomach action and also shows some ovicidal action.
- ▶ **Agas** has broad spectrum activity allowing simultaneous control of sucking insects and mites.
- ▶ **Agas** is an inhibitor of mitochondrial respiration & it exhibits translaminar action with vapourizing effect for better insect and mite control.
- ▶ **Agas** is selective to beneficial insects & predatory mites. Being a urea derivative it has add on phytotonic effect on the plant.
