

ADAMA India Private Limited

(Formerly known as Makhteshim-Agan India Private Limited)

Presents

Boregan™ G

Leaf folder

Stem Borer

**Effective control for
Leaf folder & Stem borer in Rice**

Boregan™ G

Cartap Hydrochloride 4% Gr

- ▶ **Boregan G** is an analogue of the natural toxin nereistoxin.
- ▶ **Boregan G** is a systemic insecticide with stomach and contact action. The treated insects discontinue feeding, and die of starvation.
- ▶ **Boregan G** is Nicotinerpic acetylcholine blocker, causing paralysis by blocking cholinergic transmissions in the central nervous systems of insects.
- ▶ **Boregan G** controls all stages of insect development e.g-eggs, larvae & adults

Available Pack sizes:
1kg, 5kg, 25kg

Antidote:
Treat symptomatically.

Recommendation for use:

Crop	Insect pest	Dosage	
		kg/Hectare	kg/Acre
Rice	Stem borer	18.75	7.5
	Leaf folder	18.75-25	7.5-10
	Whorl Maggot	18.75-25	7.5-10
