**REFER TO BOOKLET FOR FULL LABEL INSTRUCTIONS****HAZARD CLASSIFICATIONS: 6.1D, 6.9A, 9.1A, 9.3B, 9.4A****PCBU RESPONSIBILITIES**

A PCBU with management or control of work using this substance must ensure that every worker who uses, handles, manufactures, or stores this hazardous substance (including hazardous waste) is, before the worker is allowed to carry out or supervise work involving those substances, provided with adequate information, training and instruction. This includes the use of personal protective equipment to be used to minimise risks to the health and safety of workers when carrying out work using this substance.

**QUALIFICATIONS REQUIRED FOR APPLICATION OF CLASS 9 SUBSTANCES**

Anyone who mixes, loads, or applies this product, either by air or ground based methods, is required to be suitably qualified, or must receive guidance and, if required, assistance from a suitably qualified person. Refer to Schedule 10 of the Hazardous Substances (Hazardous Property Controls) notice 2017 for a list of suitable qualifications.

**RECORD KEEPING**

Where 3 kg or more of the substance is applied within 24 hours, in a place where the substance is likely to enter air or water and leave the application area, a PCBU with management or control of the substance must ensure that a written record is kept of each application of the substance. Refer to Part 4 Clause 48 of the Hazardous Substances (Hazardous Property Controls) notice 2017 for details of information that must be recorded.

**DANGER**

**Harmful if swallowed.**

**Causes damage to central nervous system through prolonged or repeated exposure.**

**ECOTOXICITY**

**Very toxic to aquatic life with long lasting effects.** Do not apply onto or into water. Avoid contamination of any water supply with product or empty container.

**Toxic to terrestrial vertebrates.**

**Very toxic to terrestrial invertebrates.** Spray must not contact plants in flower if they are likely to be visited by bees.

**HANDLING PRECAUTIONS**

Keep out of reach of children.

Do not eat, drink or smoke while using.

Do not breathe spray mist.

Wash exposed skin thoroughly after use.

Use only outdoors or in a well-ventilated area.

**EQUIPMENT**

A PCBU with management or control of work using this substance must ensure that equipment used to handle this substance retains the substance, without leakage, at all of the temperatures and pressures at which the equipment is to be used; and dispenses or applies the substance, without leakage, at a rate and in a manner that the equipment is designed for. The PCBU must ensure that the equipment is accompanied by documentation that is readily available and readily understandable about the use and maintenance of the equipment.

**STORAGE**

Store in the original, unopened container in a cool, dry place, out of direct sunlight and away from stockfeed or foodstuffs.

Store in accordance with NZS 8409 Management of Agrichemicals. Stores containing 100 L of this product require secondary containment and signage, and more than 100 L require emergency response plans.

**SHELF LIFE**

When stored appropriately this product should show no significant degradation for two years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

**PERSONAL PROTECTION**

When mixing or spraying product, wear cotton overalls buttoned to the neck and wrist, a washable hat, boots, impervious gloves and eye protection. Remove protective clothing and wash hands and face with soap and water before meals and after work.

**SPILLAGE**

Exclude all bystanders from the vicinity of the spill and prevent material from entering waterways. Wear appropriate protective clothing as in the personal protection section of this label to clean up spills. Absorb spills with an inert material (such as vermiculite, earth, sand or synthetic absorbent substance) and place in waste containers. Wash area with water and alkaline detergent. Then absorb any remaining liquid with further inert material. Dispose of the waste safely in an approved landfill.

**DISPOSAL**

**Container Disposal** - Triple rinse empty container and add rinsate to spray tank. Submit clean empty container to an Agrecovery® depot for recycling. Alternatively, puncture and bury in a suitable landfill. Avoid contamination of any water supply with product or empty container.

**Product Disposal** - Dispose of this product only by using according to the label, or through the Agrecovery® Chemical Recovery service or other approved facility.

**FIRST AID**

**If medical advice, is needed, have product container or label at hand.**

**For advice, or if you feel unwell, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.**

**IF SWALLOWED:** Rinse mouth. Call a POISON CENTRE or doctor if you feel unwell.

**CONDITIONS OF SALE**

ADAMA New Zealand Limited will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of ADAMA New Zealand Limited is limited to the replacement of the goods or (at the option of ADAMA New Zealand Limited) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to ADAMA New Zealand Limited within thirty days of delivery.

**SAFETY DATA SHEET**

A Safety Data Sheet for this product is available from ADAMA New Zealand Limited on request. Call 03 543 8275.

**DIRECTIONS FOR USE**

**TAKE ALL REASONABLE STEPS TO ENSURE THAT THE SUBSTANCE DOES NOT CAUSE ANY SIGNIFICANT ADVERSE EFFECTS TO THE ENVIRONMENT BEYOND THE APPLICATION AREA.**

**It is an offence to use this product on animals.**

CROP	PEST	RATE	COMMENTS
<b>Vegetable brassicas</b>	Diamondback moth, white butterfly	120 mL in approximately 500 L water/ha	Use a suitable non-ionic wetter. Treatments should commence in response to scouting thresholds and be repeated at 7-10 day intervals depending on insect pressure and weather conditions. Spray to achieve even coverage to the point of run off. DO NOT apply more than four times in any one cropping season. Alternative insecticides with a different mode of action should be used at other times to prevent pest resistance development. Follow the published Resistance Management Strategy. ALBATROSS 200 SC INSECTICIDE is compatible with a wide range of fungicides, insecticides, surfactants and foliar fertilisers used in vegetable brassicas. If unsure, seek advice before use.
<b>Citrus</b>	Kelly's citrus thrip	10 mL in 100 L water	Apply in a high volume spray to the point of runoff. Apply at the end of flowering and repeat at 14 day intervals during the 6-8 week period following flowering. Do NOT make more than 4 applications in any one season. Do NOT apply to trees in flower if they are likely to be visited by bees.
<b>Cultivated mushrooms</b>	Mushroom flies (sciarids, cecids and phorids)	16 mL per 300 L bale of peat moss	Incorporate thoroughly during the preparation of casing. <b>Mixing:</b> Add the correct volume of ALBATROSS 200 SC INSECTICIDE to the water to be used in the preparation of casing and mix well. Apply mixture to peat moss and ensure thorough mixing.

CROP	PEST	RATE	COMMENTS
Onions	Thrips	150-200 mL in approximately 500 L water/ha	Use a suitable surfactant. Spray to achieve even coverage to the point of run off. Treatments should commence in response to scouting thresholds and be repeated at 7-10 day intervals, depending on thrip numbers and weather conditions, as a cluster of 3 or 4 sequential sprays. <b>Resistance Management:</b> Do NOT apply more than four times in any one cropping season. Alternative insecticides with a different mode of action should be used at other times to prevent pest resistance development. Follow the published Resistance Management Strategy.

**It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.**

### WITHHOLDING PERIODS

<b>Citrus:</b>	<b>42 days – Ensure that the withholding period is strictly adhered to especially in multi-flowering crops such as lemons.</b>
<b>Mushrooms:</b>	<b>14 days</b>
<b>Onions:</b>	<b>3 days</b>
<b>Vegetable brassicas:</b>	<b>7 days</b>

### MIXING

Shake the container well before use. Add the required quantity of ALBATROSS 200 SC INSECTICIDE to a half-filled spray tank of clean water. Top up with clean water and mix thoroughly before use. The addition of a non-ionic wetter at manufacturer's rates is recommended in vegetable brassicas.

### RESISTANCE MANAGEMENT

ALBATROSS 200 SC INSECTICIDE contains the GROUP 2 phenylpyrazole insecticide, fipronil. Resistance to ALBATROSS 200 SC INSECTICIDE and related insecticides could develop from repeated use. To minimise the risk of resistance developing, use strictly in accordance with the label directions. Unless directed, do not use another product containing insecticides in the same groups in conjunction with ALBATROSS 200 SC INSECTICIDE. Refer to <https://resistance.nzpps.org/index.php> for current resistance management strategies for the pests listed.

### CONDITIONS OF SALE
