0800 2436225) For transport emergency dial 111.**

STORAGE AND TRANSPORT: Store locked up in a cool dry place away from
foodstuffs. Do not carry more than 5kg on a passenger service vehicle.

SAFETY DATA SHEET: A Safety Data Sheet is available from Grochem or
www.grochem.com

DISPOSAL: This product should be disposed of by use in the manner
described on the label, or by depositing it in an approved landfill. Dispose of
empty packaging by burying in an appropriate landfill.

CONDITIONS OF SALE: Grochem®, a brand of ADAMA New Zealand
Limited (Grochem) will not accept any responsibility whatsoever and
howsoever arising and whether for consequential loss or otherwise in
connection with the supply of these goods other than the
responsibility for the merchantable quality of the goods and such
responsibilities mandatorily imposed by the Statutes applicable to the
sale and supply of these goods. To the extent allowed by such Statutes
the liability of Grochem is limited to the replacement of the goods or
(at the option of Grochem) the refund of the price paid and is
conditional upon a claim being made in writing and where possible
sufficient part of the goods to enable proper examination being
returned to Grochem within thirty days of delivery.

Approved Pursuant to the HSN0 Act 1996, under the Fertilisers (Subsidiary hazard)
group standard. No HSR002571. See www.epa.govt.nz for approval conditions.

DIRECTIONS FOR USE:

Kiwi Combo has been developed as a foliar feed for application to
horticultural crops for early and mid-season use. It should be used as part
of a season long foliar program and should also be applied before and after
periods of stress such as drought, low temperatures, excess rain etc. It is
designed to be absorbed by the plant foliage and will not burn or scorch
plant growth when applied at recommended rates.

APPLICATION RATE	WATER RATE
5kg per hectare	Minimum 100L per hectare

MIXING INSTRUCTIONS

1. Add one quarter of the spray water to the tank and begin agitation.
2. Either pre-dissolve the powder in 5 times its volume of water or add to
the inlet screen and wash into the spray tank with the remainder of the
water.
3. Add any trace elements next, starting with solids, then dispersion and
finally solutions.
4. Lastly add any chemicals.
5. Apply immediately. Do not store mixed chemicals.

Note: Where a product datasheet specifies that the products should
be added in a different order than above (eg. Copper hydroxide) then
follow those instructions. If in any doubt about compatibility or unfamiliar
chemicals are being used then a trial mix is recommended.
