#### EMERGENCY PROCEDURES

**24 HOUR ADVICE IN AN EMERGENCY ONLY Phone: 0800 734 607**

| IF THIS HAPPENS                | DO THIS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Tanker/Vehicle Accident</b> | Switch off engine and electrical equipment. Keep people away, warn other traffic, Check for spills or leaks.<br><b>Call the emergency services: Dial 111</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Spill or Leak</b>           | Exclude all bystanders from the vicinity of the spill. Dyke to prevent material from entering waterways. Stop leak if safe to do so. Wear protective clothing and prevent eye, skin or mouth contact or inhalation.<br>Pump large amounts of liquid into a salvage container, then absorb remaining free liquid with clay granules, sawdust or sand. Wash down affected area with water plus alkaline detergent and absorb washings. Dispose of all contaminated materials in an authorised waste collection point or bury in an approved landfill.                                                                                                                                                                    |
| <b>Fire</b>                    | <b>Call the fire service: Dial 111.</b> Classified C1 combustible. There is a slight risk of explosion from this product if commercial quantities are involved in fire. <b>Fire decomposition products may be toxic if inhaled.</b> Total protection required including self contained breathing apparatus in enclosed areas or in close proximity to fire.<br><b>Extinguishing media:</b> Use carbon dioxide, dry chemical, foam, or water fog. Water fog or fine spray is the preferred medium for large fires. Dyke to prevent contaminated runoff into drains or the environment. Absorb remainder in sand or other inert material. Dispose of all contaminated materials in an authorised waste collection point. |

#### FIRST AID

**24 HOUR ADVICE IN A FIRST AID EMERGENCY ONLY Phone: 0800 POISON (0800 764 766)**

|                     |                                                                                                                                                                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>If swallowed</b> | If swallowed do NOT induce vomiting. Never give anything by mouth to an unconscious person. <b>For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor.</b>                                                              |
| <b>If in Eyes</b>   | Eye irritant. Hold eyes open and flush eyes with running water for at least 15 minutes. Consult an eye specialist if irritation persists.                                                                                                              |
| <b>If on Skin</b>   | Get medical attention if symptoms develop.                                                                                                                                                                                                             |
| <b>If inhaled</b>   | Remove victim to fresh air. If breathing is difficult, give artificial respiration and get medical attention immediately. Get medical attention if symptoms develop. <b>For advice contact the National Poisons Centre 0800 POISON (0800 764 766).</b> |

#### STORAGE, TRANSPORT AND SEGREGATION

**Storage:** Keep only in the original container, tightly closed. Keep in a cool, dry and well-ventilated place away from direct sunlight. **DO NOT store** with foodstuffs, stock feed, seeds or fertilizer.

**Aggregate Storage Volume Thresholds:** (Note: When stored with substances of the same hazard the aggregate quantity must be considered). For full details refer to the current NZS8409 Managements of Agrichemicals.

| Location Certificate | Hazardous Atmosphere Zone | Fire Extinguisher | Hazard Class & Emergency Action Signage | Emergency Information | Emergency Plan | Secondary Containment |
|----------------------|---------------------------|-------------------|-----------------------------------------|-----------------------|----------------|-----------------------|
| N/A                  | N/A                       | N/A               | 1000 L                                  | ≥ 5 L                 | ≥ 1000 L       | ≥ 1000 L              |

**DO NOT Store or Load With:** Class 1 **Segregate From:** Food items (in a segregation device);

**Segregation:** Check the land transport Rule Dangerous Goods 2005, Rule 45001/1 for additional information. Sea transport may require additional segregation. Refer: NZS5433; Sea Segregation, or the International Maritime Dangerous Goods Code for details.
