Before using any tank mixture, consult and comply with the recommendations of the partner products. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. ADAMA Agricultural Solutions UK Ltd accepts no liability in respect of physical compatibilities and use is at growers own risk. Use plant protection products safely.
