ADAMA Agricultural Solutions UK Ltd will support the tank mixing of any of the named trace elements with an existing 2-way tank mix. ADAMA Agricultural Solutions UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

## 3-Way Mixes

The following tank mixes have been tested under continuous agitation for physical compatibility with SCEPTRE® and will mix at recommended rates:

Falcon + Sultan	Shogun + Sultan
-----------------	-----------------

When using tank mixes always follow the statutory conditions of all tank mix partners. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. ADAMA Agricultural Solutions UK Ltd gives no warranty and accepts no liability in respect of physical compatibilities and use is at growers own risk. SCEPTRE® is a registered trademark of the ADAMA group. SCEPTRE® contains 25g/kg lambda-cyhalothrin. Use plant protection products safely. Always read the label and product information before use. For further product information, including warning phrases and symbols, refer to [www.adama.com/uk](http://www.adama.com/uk) or call The Technical Helpline on 01635 876 622.
