

ARIZONA®

WHEAT - T1

Get **ahead** and stay **ahead** of disease

T1 planning is likely to be challenging this spring as the dry spell raises questions over fungicide product choice and rates. Whether you're considering reducing rates of stronger products or paring back further on later drilled crops with straight azole/mixtures then including ARIZONA® is recommended as part of a Septoria control strategy.

Including ARIZONA® together with appropriate doses of single site chemistry at T1, in what is likely to be a protectant situation this season, certainly plays to ARIZONA® strengths as a multi-site contact/protectant, supporting the partner(s) to ensure robust protection against Septoria whatever the weather brings in the period up to T2.

Product Information

Active ingredients: 500g/L folpet

Formulation: Suspension Concentrate

Pack size: 5 litres

Application Information

Water volume: 200-400L/ha
(Qualified use: 150L/ha or 1% v/v equivalent)

Spray quality: Medium

LERAP: B

Key Benefits

- Enhances disease control by providing additional activity against septoria in wheat.
- Delivers a reliable return on investment by extending green leaf area duration, resulting in higher yields and enhanced crop quality.
- Provides a useful reduction of yellow and brown rusts, as well as intrinsic activity against mildew.
- ADAMA's ARIZONA® is the only multi-site fungicide which has been proven to extend the effective lifetime of at-risk fungicides by delaying the development of resistance.

Crop Information

Crop	Max individual dose (L/ha)	Max total dose (L/ha)	Latest time of application
Winter & spring wheat, winter & spring barley and triticale	1.5	3.0	Before end of heading/inflorescence fully emerged (GS 59)

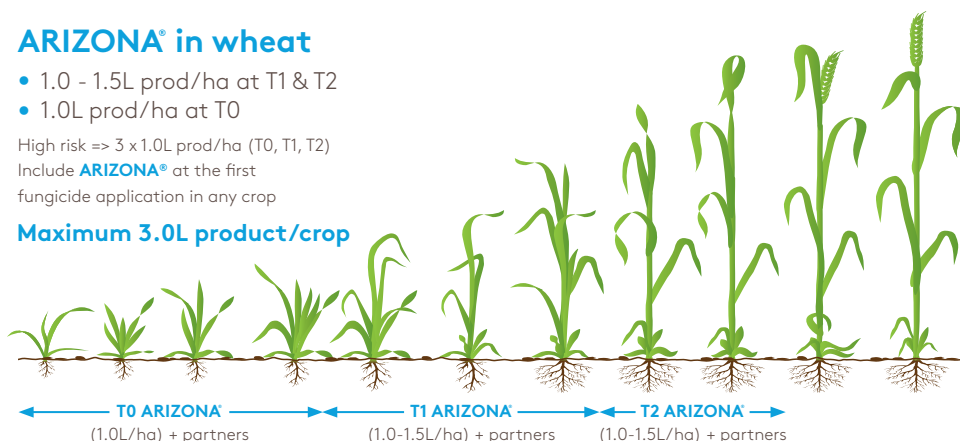

ARIZONA® in wheat

- 1.0 - 1.5L prod/ha at T1 & T2
- 1.0L prod/ha at T0

High risk => 3 x 1.0L prod/ha (T0, T1, T2)

Include ARIZONA® at the first fungicide application in any crop

Maximum 3.0L product/crop

ARIZONA® is a registered trademark of the ADAMA group. ARIZONA® contains 500g/L (39.5% w/w) folpet. Use plant protection products safely.
