

ADAMA SULTAN®

SULTAN® 50 SC is a residual herbicide for use in winter and spring oilseed rape, as well as brassicas, ornamental plant production and nursery fruit trees, forming a foundation for the control of a wide range of broad-leaved weeds and annual grasses.

Key Benefits

- The key foundation of your OSR herbicide programme.
- Control of a wide range of broad-leaved and grass weeds.
- Tank mix flexibility to tackle particular problem weeds and maximise herbicide return on investment.

Advisory Information

This product contains metazachlor and is therefore included in the 'Think Water' stewardship campaign. Particular care is needed when using in Surface Water Drinking Water Safeguard Zones:

- Do not use after 30 September on drained fields, including mole-drained.

In other areas:

- Avoid use after 15 October on drained fields, including mole-drained.

Crop Information

Crops	Max individual dose (L/ha)	Max number of treatments (per crop)	Timing and recommendations
Spring oilseed rape	1.5	1	Before 10 true leaf stage (BBCH 19)

Aim to apply 1.0-1.5L/ha pre- or early post-em
