

Zulu® Tank Mixes

The following tank mixes were tested by Syngenta UK Ltd for physical compatibility with Zulu® at recommended rates of use and will mix in the sprayer tank. This list was published by Syngenta on the date shown. Tests have been undertaken on crop safety and product performance; as marketing agent Adama Agricultural Solutions UK Ltd will support the physical and biological compatibility of Zulu® as a 2 or 3-way tank mix with any of the fungicides, herbicides, insecticides or PGRs listed for treatments applied after the 1st January 2018. For further information on compatibilities, contact our Technical Helpline on 01635 876 622.

Verdi-Crop 4 Yield Extra	Yara Vita Maizeboost	Yara Zintrac 700
Yara Vita Agripotash	Yara Vita Mancozin	

Incompatible Mixes

DO NOT tank mix with Corbel and Opera.

¹ If AXIAL + ADIGOR is mixed with ZULU only ONE additional tank mix partner may be added.

² When ZULU is mixed with other SDHI's, the total dose must not exceed 100% of a single SDHI dose.

³ Requires constant agitation.

When using tank mixes always follow the statutory conditions of all tank mix partners. Physical compatibility tests check that the products will mix and are suitable for application through a conventional sprayer and may not be approved tank mixes. These tests do not check for any adverse crop effects or the biological efficacy of the individual products when applied in a tank mix. Adama Agricultural Solutions UK Ltd gives no warranty and accepts no liability in respect of physical compatibilities and use is at growers own risk.
