# CUSTODIA®

BEANS

## Protecting bean crops from chocolate spot and rust.

With temperatures rising together with potential humid/thunderly conditions forecast towards end May into early June then there is an increased risk of chocolate spot development in both winter and spring beans. The rust threat is likely to increase from June onwards. Protect bean crops against both diseases with Custodia®.

Custodia® combines tebuconazole with azoxystrobin to provide both curative and protectant activity against chocolate spot and rust.

### Product Information

**Active ingredients:**

120g/L azoxystrobin & 200g/L tebuconazole

**Formulation:** Suspension Concentrate

**Pack size:** 5 litres

### Application Information

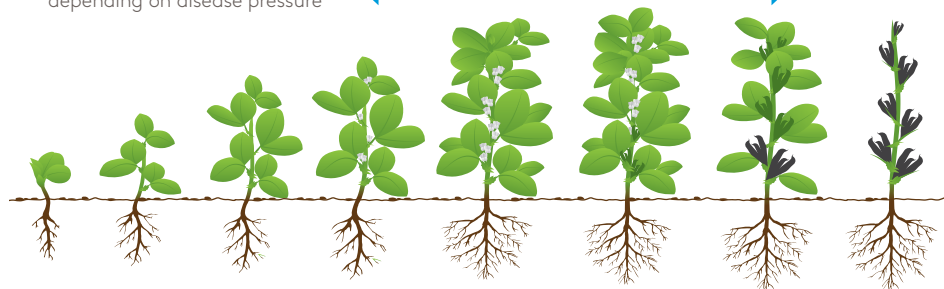

**Water volume:** 200-300L/ha

**Spray quality:** Medium
