

ADAMA

ARIZONA®

BARLEY

ARIZONA® is a unique multi-site protectant fungicide for barley providing an anti-resistance strategy for the control of Rhynchosporium and a range of other diseases.

POWERED BY

MSI Protech

Key Benefits

- Good contact protectant activity against Rhynchosporium at T0/T1 timings and Ramularia at T2.
- Improved ramularia protection by including ARIZONA® at T1 and T2.
- Does not interfere with the uptake of curative partner products.
 - Maximises what is applied (triazoles, SDHIs).
- Intrinsic activity on brown rust and mildew.
- Multi-site activity to delay resistance development and extend the effective life of single site partner product.
