

ADAMA

# ARIZONA®

## WHEAT

ARIZONA® is a unique multi-site protectant fungicide for wheat and barley providing an anti-resistance strategy for the control of Septoria and a range of other cereal diseases.

POWERED BY

MSI Protech

### Key Benefits

- Provides strong protection against Septoria.
- Useful reduction of yellow and brown rust.
- Does not interfere with triazole/SDHI uptake so maximises what is applied;
  - Crucial for optimising curative activity against Septoria.
  - When targeting fast cycling diseases such as rusts.
- Multi-site activity to delay resistance development and extend the effective life of single site partner product.
