

ADAMA

# CUSTODIA®

## BEANS

Protecting bean crops from  
chocolate spot and rust.

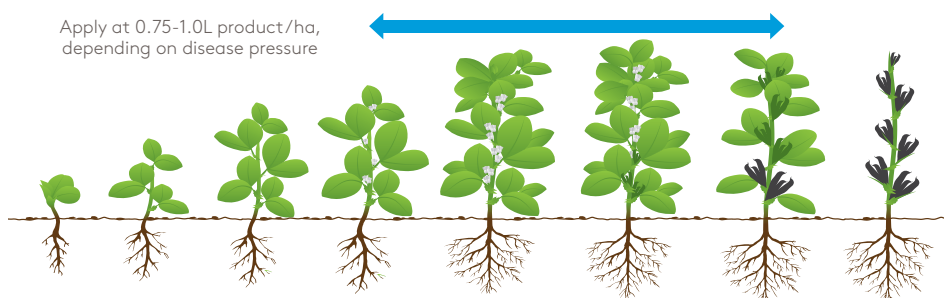

### Key Benefits

- **CUSTODIA®** combines tebuconazole and azoxystrobin to provide both curative and protectant activity against chocolate spot and rust
- Increased green leaf retention produces yield benefits
- For use on both winter and spring crops

### Crop Information

Crops	Max individual dose (L/ha)	Max number of applications	Latest time of application
Beans	1.0	1	Up to 50% of fruits having reached final size or fruit has reached 50% of final size (BBCH 75)

Ideally positioned at the late flower/first pods forming stage to provide robust rust protection and green leaf retention to benefit yield.

### Product Information
