

ADAMA

CUSTODIA®

OILSEED RAPE

Combines tebuconazole with azoxystrobin for the control of Sclerotinia stem rot in oilseed rape.

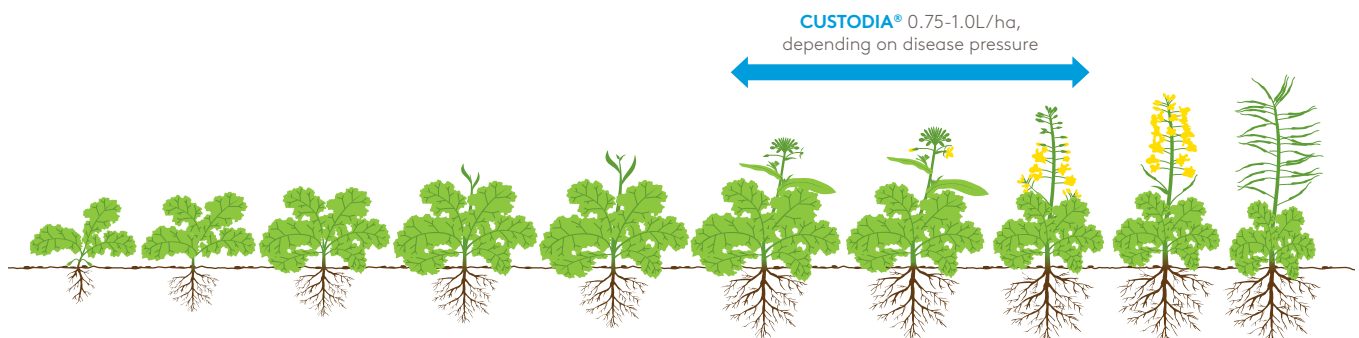

Key Benefits

- CUSTODIA® helps to optimise ripening and increases viability of upper stems and pods
- The azoxystrobin element in CUSTODIA® helps to keep the crop canopy greener for longer
- The tebuconazole element helps to mitigate pod lodging.

Crop Information

Crops	Max individual dose (L/ha)	Max number of applications	Latest time of application
Oilseed rape	1.0	2	Up to and including full flowering (GS 65)

- CUSTODIA® should be applied as a protectant spray during flowering.
- The optimum timing is early flowering to mid flowering (BBCH 61-65).

Product Information

Active ingredients:
120g/L azoxystrobin
200g/L tebuconazole

Formulation:
Suspension Concentrate

Pack size: 5 litres

Application Information

Water volume: 200-300L/ha

Spray quality: Medium

LERAP: B
