

CAZADO™

Tank-Mix Recommendations

❖ The following products showed no antagonism or physical compatibility issues noted in testing when tank-mixed with CAZADO:

- | | |
|------------------------|--------------------------------|
| ▪ 2,4-D Ester | ▪ Barricade® + Perimeter® II |
| ▪ BADGE® | ▪ OnDeck™ |
| ▪ ESTEEM ALL IN® | ▪ Infinity® |
| ▪ FORCEFIGHTER ALL IN® | ▪ Infinity® Fx |
| ▪ OUTSHINE ALL IN® | ▪ PP2525 granular + Perimeter® |
| ▪ RUSH 24 ALL IN® | ▪ Talinor™ |
| ▪ TOPLINE® | ▪ Travallas® |
| ▪ THRASHER® | ▪ Flurox + MCPA |
| ▪ MCPA 600 Ester | |

Always read and follow labels for specific uses, environmental considerations, crops, and staging.

❖ There is a potential for antagonism on wild oat control when the following AI's are tank-mixed with CAZADO:

- Dicamba
- Metribuzin

❖ Unless otherwise noted it is recommended for enhanced grassy weed control to include:

- AMS (on spring wheat only) @ 202g/ac (99%) or 0.405 L/ac (49% solution)
- NIS (for durum wheat) @ 0.25%v/v
