Always read and follow labels for specific uses, environmental considerations, crops, and staging.

❖ There is a potential for antagonism on wild oat control when the following AI's are tank-mixed with CAZADO:

- Dicamba
- Metribuzin

❖ Unless otherwise noted it is recommended for enhanced grassy weed control to include:

- AMS (on spring wheat only) @ 202g/ac (99%) or 0.405 L/ac (49% solution)
- NIS (for durum wheat) @ 0.25%v/v
